Total			22	0	14	30

All the students should take **CHC100** and **GEC351**

*** According to the updated curriculum 5th year students should take **one more elective**

As you know 5th year is **semimodular** system. There are 3 modules.

In the 5th year fall semester, the electives fall under 3 major categories: 55*, 56* and 57*, where * is any number between 0 and 9. Of these, the courses where * is 0, namely 550, 560 and 570 are main module courses, and the courses where * is not 0 are the lectures under that module.

Students must take one **and only one** main module course, and must take one non-main module course from the same module, and one course from a different module. If, for example, the student has chosen 550 as the main module course, they must select a 55* course, and a 56* or 57* course, where * cannot be 0.
